

Jessica (Jessie) Muir

Curriculum vitae

October 12, 2023

Work address:

Perimeter Institute for Theoretical Physics

31 Caroline St N

Waterloo, ON N2L 2Y5, Canada

jmuir@perimeterinstitute.ca

Website: www.jessiemuir.com

ORCID: [0000-0002-7579-770X](https://orcid.org/0000-0002-7579-770X)

EMPLOYMENT

Sept. 2021 - present, **Postdoctoral Fellow**, Perimeter Institute for Theoretical Physics.

Sept. 2018 - Aug. 2021, **Porat Fellow** - Institutional fellowship at KIPAC, Stanford University & SLAC.

EDUCATION

Ph.D. in Physics

Sept. 2013 - Aug. 2018. The University of Michigan, Ann Arbor, MI.

Advisor: Dragan Huterer. Thesis: "Towards precision cosmology on the largest observable scales."

MPhil in Astronomy

Sept. 2012- Aug. 2013, Gonville and Caius College, the University of Cambridge. Cambridge, UK.

Advisor: Anne-Christine Davis, Thesis: "Screened modified gravity around a Schwarzschild black hole."

MASt in Applied Mathematics (Part III), awarded with distinction.

Sept. 2011 - Jul. 2012, Gonville and Caius College, the University of Cambridge. Cambridge, UK.

Graduate coursework, Aug. 2010- Aug. 2011, enrolled in physics Ph.D. program, Michigan State University.

B.S. in Physics and B.S. in Astrophysics, awarded with High Honors.

Aug. 2006- May 2010, Michigan State University.

Advisor: Mark Voit. Thesis: "Predicting neutrino mass constraints from galaxy cluster surveys."

HONORS AND AWARDS

- 2023 BMO Inclusive Excellence Postdoctoral Fellowship, funding 2023-2024 at Perimeter Institute
- 2020 DES Builder, recognition of 2 yrs FTE work on collaboration infrastructure, permanent data rights
- 2020 Finalist for APS Cecilia Payne-Gaposchkin Doctoral Dissertation Award in Astrophysics
- 2019 Rising Stars in Physics, nationally competitive workshop held at Stanford.

- 2019 Kent M. Terwilliger Memorial Thesis Prize, University of Michigan Department of Physics
- 2018 Wirt & Mary Cornwell Prize, University of Michigan
- 2018 Community Engagement Award, University of Michigan Department of Physics
- 2017 Rackham Predoctoral Fellowship, University of Michigan, funding 2017-2018
- 2015 Peter Franken Award, University of Michigan Department of Physics.
- 2013 Colegrove Fellowship, University of Michigan, funding 2013-2014
- 2011 Rasmussen Graduate Fellowship, Michigan State University, funding 2010-2011
- 2010 Marshall Scholarship, deferred until 2011, funded 2011-2013 at University of Cambridge

- 2010 Thomas Osgood Award for Outstanding Senior in Physics or Astrophysics, MSU
- 2009 Barry Goldwater Scholarship
- 2009 Bruce VerWest Award for Outstanding Junior in Physics or Astrophysics, MSU
- 2009 Phi Beta Kappa
- 2009 Sigma Pi Sigma (Physics honors society)

- 2009 Hantel Endowed Fellowship for Undergraduate Research, MSU
 2008 Hantel Endowed Fellowship for Undergraduate Research, MSU
 2008 College of Natural Science Competitive Scholarship for Study Abroad, MSU
 2006 Distinguished Freshman Scholarship (4 years full tuition), MSU
-

PRESENTATIONS

Invited Talks

- Sept 2023 Santa Cruz Institute for Particle Physics Seminar, UC Santa Cruz
 Sept 2023 BCCP/Cosmology Seminar, UC Berkeley
 April 2023 Researcher talk at Perimeter Institute Scicomm Collider
 April 2023 “Cosmology Talks” online mini-workshop on growth of cosmological structure, invited expert
 Feb 2023 Astronomy Colloquium, Boston University
 Feb 2023 Physics Colloquium, Northeastern University (virtual)
 Oct 2022 Seminar, Canadian Institute for Theoretical Astrophysics, Toronto [\[recording\]](#)
 Sept 2022 HEP/Astro Seminar, University of Michigan Physics
 Sept 2022 Astrophysics seminar, Waterloo Center for Astrophysics (virtual) [\[recording\]](#)
 Aug 2022 Workshop on Classical Gravity & Applications, ICTP-SAIFR, São Paulo, Brazil
 Aug 2022 COSMO 2022 plenary, Rio de Janeiro, Brazil
 July 2022 Cosmology from Home plenary, with Agnès Ferté (virtual) [\[recording\]](#)
 Jan 2022 Dutch Theoretical Cosmology meeting (virtual)
 Dec 2021 Physics Colloquium, Boston University (virtual)
- Feb 2021 Cosmology seminar, ETH Zurich (virtual)
 Jan 2021 CCAPP Seminar, Ohio State University (virtual)
 Dec 2020 Cosmology seminar, Perimeter Institute (virtual)
 Aug 2020 HSC Weak Lensing group meeting, talk on DES blinding strategy (virtual)
 July 2020 German Center for Cosmological Lensing (GCCL) seminar (virtual)
 May 2020 SLACmass Neutrino group meeting, talk on neutrino cosmology, joint with Yuuki Omori
 April 2020 APS April meeting Cecilia Payne-Gaposchkin dissertation award session (virtual)
 Jan 2020 LSST-DESC Theory & Joint Probe telecon, talk on DES blinding strategy
 Sept 2019 Intl. Symposium on Multi-particle Dynamics, Santa Fe (DES overview)
 May 2019 Cahill Cosmology Journal Club, Caltech
 May 2019 Astrophysics luncheon seminar, NASA JPL
 March 2019 Cosmology seminar, Max Planck Institute for Astrophysics, Munich, Germany
 March 2019 LSST-DESC Theory & Joint Probe telecon, contributor to discussion on blinding
 Feb 2019 Friday Lunch Time Astrophysics Seminar, UC Santa Cruz
- Feb 2018 Cosmology seminar, Perimeter Institute
 Dec 2017 Cosmology seminar, Fermilab Center for Particle Astrophysics
 Oct 2017 Astro lunch student seminar series, Case Western Reserve University
 May 2017 Cosmology group meeting, NYU CCP
 May 2017 Cosmology journal club, University of Pennsylvania
 March 2017 INPA Seminar, Lawrence Berkeley National Laboratory
 March 2017 Blind Analysis for High Stakes Survey Science workshop, SLAC

Contributed talks

- May 2023 Surveys 2 Discovery Conference, Mila Quebec AI Institute, Montreal
 Aug 2022 LSST DESC Collaboration meeting, Blinding topical team parallel session
 May 2022 Plenary on beyond- Λ CDM results, DES Collaboration meeting, Duke University
 May 2021 Plenary on testing beyond- Λ CDM theory, DES Collaboration meeting (virtual)

Oct 2019	Cosmic Controversies Conference, University of Chicago
Jan 2019	Testing Gravity 2019, Simon Fraser University, Vancouver, BC
Aug 2017	Physics Graduate Student Symposium, University of Michigan
Aug 2016	COSMO 2016, University of Michigan, Ann Arbor, Michigan
Jul 2016	Diving into the Dark, CAASTRO, Cairns, Australia

TEACHING & MENTORING

Teaching

Aug 2023	Guest lecture for AST 201 (intro astronomy for non-majors) at U. of Toronto Mississauga
March 2023	Guest lecture for AST 201 (intro astronomy for non-majors) at U. of Toronto Mississauga
April 2022	Guest lectures for AST 201 (“) & 222 (intro astronomy for majors) at U. of Toronto Mississauga
Summer 2021	Coordinator, Scientific computing bootcamp for KIPAC summer undergrad researchers.
July 2020	Guest lecturer, “The Origin and Development of the Cosmos,” (Physics 16), Stanford <ul style="list-style-type: none"> - Intro class for non-majors, taught one session of active-learning style online lectures
Fall 2017	Teaching Assistant, Intermediate Classical Mechanics (Physics 401), U. of Michigan. <ul style="list-style-type: none"> - Developed Jupyter notebooks for computational assignments. - Ran and developed activities for weekly discussion sessions. - Guest lectured for two class sessions
Fall 2015	Instructor for Physics GRE prep courses at University of Michigan.
June 2015	Teaching assistant, Michigan Math and Science Scholars summer program <ul style="list-style-type: none"> - “Mapping the Mysteries of the Universe” 2 week program for high school students. - Prepared and presented interactive worksheets, labs, and demonstrations. - Guest-lectured for one main class session.
Winter 2015	Grader, Quantum Field Theory II (Physics 523), University of Michigan.
Fall 2014	Grader, Quantum Field Theory I (Physics 513), University of Michigan.
June 2014	Teaching assistant, “Mapping the Mysteries of the Universe.” (same as June 2015)

Research Mentoring

Fall 2022 - present	Jordan Krywonos, PhD student at Perimeter Inst., co-supervising with Matthew Johnson
Fall 2022	Oleksandra Hrytseniak, co-advised masters research with Niayesh Afshordi
Summer 2022 - present	Yi Wang, PSI START Internship summer undergraduate research project (sole supervisor), Dalhousie University bachelor’s thesis (remote co-supervisor)
Feb 2022	Jordan Krywonos and Javiera Hernández Morales, Perimeter Scholars International Winter School, short masters-level project co-supervised with Matthew Johnson
Summer 2020	Parth Garg, Stanford Physics Undergraduate Summer Research Program

Other mentoring

Summer 2022 - present	Supernova Foundation mentoring program for women in physics, 2 mentees
Fall 2021 - present	Perimeter Institute postdoc-graduate student mentoring program, 2 mentees

SERVICE

Professional service

Journal referee for: MNRAS, ApJ, A&A
Grant reviewer for: NASA Astrophysics Theory Program (ATP) (2 sessions), NASA FINESST

Service for collaborations

June 2022 - present LSST DESC blinding topical team
 Oct 2018 - Sept 2022 Co-lead of DES Year 3 beyond- Λ CDM analysis team
 Nov 2018 Observing shift for the Dark Energy Survey.
 Aug 2017 Observing shift for the Dark Energy Survey.

Departmental Service

Sept 2023 - present Perimeter Institute cosmology group meeting organizer
 June 2022 - present Perimeter Institute Inclusive Platform Women in Physics working group chair
 June 2022 - Aug 2023 Created, coordinated cosmology student & postdoc journal club at Perimeter Inst.
 June - July 2021 Coordinated KIPAC summer student computing bootcamp and lightning talk sessions
 June 2020 - Aug 2021 Postdoc representative to KIPAC management committee.
 Sept 2018 - Aug 2021 Stanford inclusive physics reading group. Led 3 discussions.
 Jan 2019 - May 2020 KIPAC cosmology seminar organizer.
 Dec - Jan 2019 Stanford astrophysics graduate admissions committee.
 May 2019 KIPAC hack day organizer.
 March 2019 Organizer of Stanford Physics lunch for International Women's Day.

2013-2018 Michigan Society for Women in Physics (SWIP)
 - Executive board 2015-2017, President 2017-2018. Managed budget 2015-2018.
 - Oversaw, edited project documenting the history of early alumnae of Michigan Physics, publishing findings on posters for department hallways. (2017-2019)
 - With Society for Physics Students (SPS), established a grad-undergrad mentoring program, 2016.
 - Coordinated LGBTQ+ Allyship workshops for members of the physics department via the UM Spectrum center, in Feb 2015 and Dec 2016 with >50 attendees each.
 - With other graduate students, met with department chair about initiatives related to diversity, equity, and inclusion (DEI), prompting creation of DEI committee. 2016.

Fall 2015 Michigan Cosmology journal club organizer
 March 2015 Michigan Physics departmental poster session organizer.
 2014 -2015 Physics graduate council, class representative. Established a peer mentoring program for incoming graduate students.
 Summer 2014 Physics Graduate Student Symposium, organizer, webmaster.
 March 2014 Michigan Physics departmental poster session organizer.

OUTREACH

Non-technical (outreach) talks

June 2023 Astronomy on Tap, Kitchener-Waterloo
 March 2023 Speaker Night, Royal Astronomical Society of Canada, Mississauga Centre
 July 2020 KIPAC public lecture series (online: <https://youtu.be/FDKzkWo0ucQ>)
 Dec 2018 Astronomy on Tap, San Francisco
 May 2018 Astronomy on Tap, Bryan, Texas
 Oct 2017 Cleveland Astronomical Society Meeting, Independence, Ohio
 Sept 2016 Science Saturdays, Cultivate Coffee and Taphouse, Ypsilanti, Michigan
 April 2015 Saturday Morning Physics, U. of Michigan (recording: <https://youtu.be/X5dwaToe1Q0>)
 May 2013 Departing Scholars Colloquium, Marshall Aid Commemoration Commission, London.
 Dec 2012 Cafe Julienne Science Night, Cambridge, UK

Illustration

Proficient with Procreate, limited experience with Adobe Photoshop, Inkscape, GIMP.

- July 2022 Created [overview illustration](#) for the Cosmic Frontier Snowmass report ([arXiv:2211.09978](#))
Spring 2021 Contributed 13 illustrations to [#Darkbites](#) social media campaign highlighting DES Y3 papers.
Sept 2020 Illustration of [Mayall telescope](#) for [DESI high school](#) outreach project.
Aug-Sept 2016 Contributed 2 illustrations to Darkbites social media campaign and calendar for DES.
Jan 2015 Designed [buttons featuring pioneering women in physics](#) for Conference for Undergraduate Women in Physics conference, with Veronica Policht.

Other outreach while at Perimeter

- May 2023 Ontario Association of Physics Teachers “Meet a Researcher Event”
Nov 2022 Conversations at Perimeter podcast (online: <https://www.podbean.com/ew/pb-cuwuz-1301c33>)
March 2022 [KIPAC research blog guest entry](#) on DES Y3 galaxy clustering and weak lensing analysis
March 2022 [GoPhysics!](#) Speed mentoring, talking about career with high school students
Nov 2021 [GoPhysics!](#) Speed mentoring

Other outreach while at Stanford

- Aug 2021 Interview on the multiverse for Scholastic’s Science World article by Jess Romeo
April 2021 Interview on Muon G-2 experiment result for Vox science podcast, Unexplainable
Oct 2019 SLAC Community day volunteer

Other outreach while at the University of Michigan

- Jul 2017 Portal to the Public mini-fellowship at the Detroit Zoo, Spring and Summer 2017.
Oct 2016 Physics consultant for Michigan student production of play, “Constellations.”
June 2016 Summers Knoll Demo day. Coordinated physics activities for ~30 students in grades 1-5.
March 2016 4-H Demo day on electricity and magnetism. Ann Arbor, Michigan.
Nov 2015 FEMMES outreach capstone event at the University of Michigan, for middle school girls from surrounding communities. Via SWIP, coordinated two physics activity stations.
May 2015 Michigan Physics Olympiad, judge for pasta bridge event, via SWIP.
Jan 2015 APS Conference for Undergraduate Women in Physics at U. of Michigan, LOC
Nov 2014 FEMMES outreach capstone event (same as Nov 2015).
May 2014 Michigan Physics Olympiad, judge for pasta bridge event, via SWIP.
Nov 2013 Girl Scout Physics day organizer, via SWIP.

Other outreach while at the University of Cambridge

- March 2013 Created an after-school module at Castlehaven Community Association in London. Part of a class service project by 2011 Marshall Scholars.
Nov 2012 Cambridge Maths Circle open house volunteer.
Dec 2011 Cambridge Hands-On Science volunteer for event in Peterborough, UK.

Other outreach while at the Michigan State University

- 2006-2011 Michigan State University Science Theatre
- Coordinated and performed science demonstrations at schools throughout Michigan.
 - Directed >10 performances of a 45 minute show on quantum mechanics and nanotechnology. Led adaptation or existing script to make it accessible for younger audiences.

LANGUAGES

English (native speaker), French (conversational)

PUBLICATIONS

Summary from [NASA ADS bibliography](#) as of October 12, 2023:

Refereed:	57 papers,	8606 total citations,	h-index 32
All:	62 papers,	8703 total citations,	h-index 32

Note that there are three separate numbered sections below: Leading contributions (7 papers), Supporting contributions (33), and Credited as a DES builder or observer (22).

Leading contributions

7. DES Collaboration, “Dark Energy Survey Y3 results: Constraints on extensions Λ CDM with weak lensing and galaxy clustering.” PRD 107 (2023) 8, 083504, [doi:10.1103/PhysRevD.107.083504](https://doi.org/10.1103/PhysRevD.107.083504), [arXiv:2207.05766](https://arxiv.org/abs/2207.05766).
Led analysis and writing, with Agnès Ferté.
6. **J. Muir**, E. Baxter, V. Miranda, C. Doux, A. Ferté, C. D. Leonard, D. Huterer, B. Jain, et al. [DES Collaboration], “DES Y1 results: Splitting growth and geometry to test Λ CDM.” PRD 103, no. 2, 023528 (2021), [doi:10.1103/PhysRevD.103.023528](https://doi.org/10.1103/PhysRevD.103.023528), [arXiv:2010.05924](https://arxiv.org/abs/2010.05924).
Led analysis and writing.
5. **J. Muir**, G. M. Bernstein, D. Huterer, et al. [DES Collaboration], “Blinding multi-probe cosmological experiments.” MNRAS 494 (2020) 3, 4454-4470. [doi:10.1093/mnras/staa965](https://doi.org/10.1093/mnras/staa965), [arXiv:1911.05929](https://arxiv.org/abs/1911.05929).
Led analysis and writing.
4. **J. Muir**, S. Adhikari, and D. Huterer, “Covariance of CMB anomalies.” PRD 98 (2018) no. 2, 023521, [doi:10.1103/PhysRevD.98.023521](https://doi.org/10.1103/PhysRevD.98.023521), [arXiv:1806.02354](https://arxiv.org/abs/1806.02354).
Led analysis and writing.
3. N. Weaverdyck, **J. Muir**, and D. Huterer. “Integrated Sachs-Wolfe map reconstruction in the presence of systematic errors.” PRD. 97, no. 4, 043515 (2018), [doi:10.1103/PhysRevD.97.043515](https://doi.org/10.1103/PhysRevD.97.043515), [arXiv:1709.08661](https://arxiv.org/abs/1709.08661).
Created software for simulation and analysis, contributed writing and mentoring for analysis.
2. **J. Muir** and D. Huterer. “Reconstructing the Integrated Sachs-Wolfe map with galaxy surveys.” PRD. 94, no. 4, 045305 (2016), [doi:10.1103/PhysRevD.94.045303](https://doi.org/10.1103/PhysRevD.94.045303), [arXiv:1603.06586](https://arxiv.org/abs/1603.06586).
Created software for simulation and analysis, led writing and analysis.
1. A. C. Davis, R. Gregory, R. Jha, and **J. Muir**. “Astrophysical black holes in screened modified gravity.” JCAP 1408, 033 (2014). [doi:10.1088/1475-7516/2014/08/033](https://doi.org/10.1088/1475-7516/2014/08/033), [arXiv:1402.4737](https://arxiv.org/abs/1402.4737).
Alphabetical author list. Led analytic calculations, observable test study, writing.

Supporting contributions

33. M. X. Lin, B. Jain, M. Raveri, E. Baxter, C. Chang, M. Gatti, S. Lee, and **J. Muir**. “Late Time Modification of Structure Growth and the S_8 Tension.” (2023) [arXiv:2308.16183](https://arxiv.org/abs/2308.16183).
Assisted with modeling software implementation, adapting DES Y3 beyond- Λ CDM code, edited paper draft.
32. DES and KiDS Collaborations, “DES Y3 + KiDS-1000: Consistent cosmology combining cosmic shear surveys.” (2022) [arXiv:2305.17173](https://arxiv.org/abs/2305.17173).
Conducted Monte Carlo sampler validation study presented in Appendix D.
31. G. Giannini et al. [DES Collaboration], “Dark Energy Survey Year 3 Results: Redshift Calibration of the MagLim Lens Sample from the combination of SOMPZ and clustering and its impact on Cosmology.” (2022) [arXiv:2209.05853](https://arxiv.org/abs/2209.05853).
Credited for contributions to broader DES Y3 analysis.
30. A. Chen et al. [DES Collaboration], “Constraining the Baryonic Feedback with Cosmic Shear Using the DES Year-3 Small-Scale Measurements.” MNRAS 518 (2023) 4, 5340-5355. [doi:10.1093/mnras/stac3213](https://doi.org/10.1093/mnras/stac3213), [arXiv:2206.08591](https://arxiv.org/abs/2206.08591).
Credited for contributions to broader DES Y3 analysis.

29. DES & SPT Collaborations. “Joint analysis of DES Year 3 data and CMB lensing from SPT and Planck III: Combined cosmological constraints.” PRD 107 (2023) 2, 023531. [doi:10.1103/PhysRevD.107.023531](https://doi.org/10.1103/PhysRevD.107.023531). [arXiv:2206.10824](https://arxiv.org/abs/2206.10824).
Credited for contributions to broader DES Y3 analysis, blinding setup.
28. Y. Omori et al. [DES & SPT Collaborations], “Joint analysis of DES Year 3 data and CMB lensing from SPT and Planck I: Construction of CMB Lensing Maps and Modeling Choices.” PRD 107 (2023) 2, 023529. [doi:10.1103/PhysRevD.107.023529](https://doi.org/10.1103/PhysRevD.107.023529). [arXiv:2203.12439](https://arxiv.org/abs/2203.12439).
Credited for contributions to broader DES Y3 analysis, blinding setup.
27. C. Chang et al. [DES & SPT Collaborations], “Joint analysis of DES Year 3 data and CMB lensing from SPT and Planck II: Cross-correlation measurements and cosmological constraints.” PRD 107 (2023) 2, 023530. [doi:10.1103/PhysRevD.107.023530](https://doi.org/10.1103/PhysRevD.107.023530). [arXiv:2203.12440](https://arxiv.org/abs/2203.12440).
Credited for contributions to broader DES Y3 analysis, blinding setup.
26. C. Doux et al [DES Collaboration], “Dark Energy Survey Year 3 results: cosmological constraints from the analysis of cosmic shear in harmonic space.” MNRAS 515 (2022) 2, 1942-1972. [doi:10.1093/mnras/stac1826](https://doi.org/10.1093/mnras/stac1826). [arXiv:2203.07128](https://arxiv.org/abs/2203.07128).
Credited for contributions to broader DES Y3 analysis.
25. P. Lemos, N. Weaverdyck, R. P. Rollins, **J. Muir**, et al. [DES Collaboration], “Robust sampling for weak lensing and clustering analyses with the Dark Energy Survey.” MNRAS 521 (2023) 1, 1184-1199. [doi:10.1093/mnras/stac2786](https://doi.org/10.1093/mnras/stac2786). [arXiv:2202.08233](https://arxiv.org/abs/2202.08233).
Contributed to initial conception & planning of project. Assisted with MCMC chains, writing.
24. D. Brout et al., “The Pantheon+ Analysis: Cosmological Constraints.” ApJ 938, no. 2, 100 (2022) [doi:10.3847/1538-4357/ac8e04](https://doi.org/10.3847/1538-4357/ac8e04). [arXiv:2202.04077](https://arxiv.org/abs/2202.04077).
Assisted with set-up of Planck and eBOSS BAO likelihoods for combined analyses.
23. D. Zürcher et al. [DES Collaboration], “Dark Energy Survey Year 3 results: Cosmology with peaks using an emulator approach.” MNRAS 511 (2022) 3, 2075-2104. [doi:10.1093/mnras/stac078](https://doi.org/10.1093/mnras/stac078). [arXiv:2110.10135](https://arxiv.org/abs/2110.10135).
Credited for contributions to broader DES Y3 analysis.
22. M. Gatti et al. [DES Collaboration], “Dark Energy Survey Year 3 results: cosmology with moments of weak lensing mass maps.” PRD 106 (2022) 8, 083509. [doi:10.1103/PhysRevD.106.083509](https://doi.org/10.1103/PhysRevD.106.083509). [arXiv:2110.10141](https://arxiv.org/abs/2110.10141).
Credited for contributions to broader DES Y3 analysis.
21. DES Collaboration, “Dark Energy Survey Year 3 Results: A 2.7% measurement of Baryon Acoustic Oscillation distance scale at redshift 0.835.” PRD 105 (2022) no. 4, 043512. [doi:10.1103/PhysRevD.105.043512](https://doi.org/10.1103/PhysRevD.105.043512). [arXiv:2107.04646](https://arxiv.org/abs/2107.04646).
Contributed to modeling pipeline validation, gave early input on blinding strategy.
20. A. Carnero Rosell et al. [DES Collaboration], “Dark Energy Survey Year 3 Results: Galaxy Sample for BAO Measurement.” MNRAS 509 (2022) 1, 778-799. [doi:10.1093/mnras/stab2995](https://doi.org/10.1093/mnras/stab2995). [arXiv:2107.05477](https://arxiv.org/abs/2107.05477).
Credited for assistance with BAO modeling pipeline, input on blinding strategy.
19. DES Collaboration, “Dark Energy Survey Year 3 Results: Cosmological Constraints from Galaxy Clustering and Weak Lensing.” PRD 105 (2022) 2, 023520. [doi:10.1103/PhysRevD.105.023520](https://doi.org/10.1103/PhysRevD.105.023520). [arXiv:2105.13549](https://arxiv.org/abs/2105.13549).
Created blinding infrastructure blinding, validated neutrino modeling, ran chains, contributed to writing.
18. E. Krause et al. [DES Collaboration], “Dark Energy Survey Year 3 Results: Multi-Probe Modeling Strategy and Validation” (2021) [arXiv:2105.13548](https://arxiv.org/abs/2105.13548).
Credited for neutrino modeling validation, contributions to broader DES Y3 analysis.
17. M. Rodríguez-Monroy et al. [DES Collaboration], “Dark Energy Survey Year 3 Results: Galaxy clustering and systematics treatment for lens galaxy samples.” MNRAS 511 (2022) no. 2, 2665-2687 [doi:10.1093/mnras/stac104](https://doi.org/10.1093/mnras/stac104). [arXiv:2105.13540](https://arxiv.org/abs/2105.13540).
Ran MCMC chains, credited for blinding infrastructure, contributions to broader DES Y3 analysis.
16. A. Porredon et al. [DES Collaboration], “Dark Energy Survey Year 3 results: Cosmological constraints from galaxy clustering and galaxy-galaxy lensing using the MagLim lens sample.” PRD 106 (2022) 10, 103530. [doi:10.1103/PhysRevD.106.103530](https://doi.org/10.1103/PhysRevD.106.103530). [arXiv:2105.13546](https://arxiv.org/abs/2105.13546).
Ran MCMC chains, credited for blinding infrastructure, contributions to broader DES Y3 analysis.

15. A. Amon et al. [DES Collaboration], “Dark Energy Survey Year 3 Results: Cosmology from Cosmic Shear and Robustness to Data Calibration” PRD 105 (2022) no. 2, 023514. [doi:10.1103/PhysRevD.105.023514](https://doi.org/10.1103/PhysRevD.105.023514). [arXiv:2105.13543](https://arxiv.org/abs/2105.13543).
Credited for blinding infrastructure, contributions to broader DES Y3 analysis.

Credited for infrastructure contributions for DES Y1 extended model analysis.
8. P. Lemos, M. Raveri, et al. [DES Collaboration], “Assessing tension metrics with Dark Energy Survey and Planck data.” MNRAS 505 (2021) 4, 6179-6194. [doi:10.1093/mnras/stab1670](https://doi.org/10.1093/mnras/stab1670), [arXiv:2012.09554](https://arxiv.org/abs/2012.09554).
DES internal reviewer.
7. A. Chen et al. [DES Collaboration], “Constraints on dark matter to dark radiation conversion in the late universe with DES-Y1 and external data.” PRD 103, no.12, 123528 (2021). [doi:10.1103/PhysRevD.103.123528](https://doi.org/10.1103/PhysRevD.103.123528). [arXiv:2011.04606](https://arxiv.org/abs/2011.04606).
Contributed mentoring for analysis through role as DES extended model Analysis Team leader.
6. DES Collaboration, “Cosmological Constraints from Multiple Probes in the Dark Energy Survey.” PRL 122, 171301 (2019). [doi:10.1103/PhysRevLett.122.171301](https://doi.org/10.1103/PhysRevLett.122.171301). [arXiv:1811.02375](https://arxiv.org/abs/1811.02375).
Credited for contributions to DES Y1 “[...]Galaxy Clustering and Weak Lensing” paper.
5. DES Collaboration, “Dark Energy Survey Year 1 Results: Constraints on Extended Cosmological Models from Galaxy Clustering and Weak Lensing.” PRD 99, no. 12, 123505 (2019). [doi:10.1103/PhysRevD.99.123505](https://doi.org/10.1103/PhysRevD.99.123505). [arXiv:1810.02499](https://arxiv.org/abs/1810.02499).
Generated some figures, contributed to pipeline validation and re-analysis for referee response.
4. Y. Omori et al. [DES and SPT Collaborations], “Dark Energy Survey Year 1 Results: Tomographic cross-correlations between Dark Energy Survey galaxies and CMB lensing from South Pole Telescope+Planck.” PRD 100, no. 4, 043501 (2019). [doi:10.1103/PhysRevD.100.043501](https://doi.org/10.1103/PhysRevD.100.043501). [arXiv:1810.02342](https://arxiv.org/abs/1810.02342).
DES internal reviewer.
3. DES and SPT Collaborations, “Dark Energy Survey Year 1 Results: Joint Analysis of Galaxy Clustering, Galaxy Lensing, and CMB Lensing Two-point Functions.” PRD 100, no. 2, 023541 (2019). [doi:10.1103/PhysRevD.100.023541](https://doi.org/10.1103/PhysRevD.100.023541). [arXiv:1810.02322](https://arxiv.org/abs/1810.02322).
Credited for contributions to DES Y1 analysis, and as internal reviewer for Omori et al 2019.

2. X. Li, N. Weaverdyck, S. Adhikari, D. Huterer, **J. Muir**, H. Y. Wu. “The Quest for the Inflationary Spectral Runnings in the Presence of Systematic Errors.” *Astrophys. J.* 862 (2018) no. 2, 137. [doi:10.3847/1538-4357/aacaf7](https://doi.org/10.3847/1538-4357/aacaf7), [arXiv:1806.02515](https://arxiv.org/abs/1806.02515).
Edited manuscript, wrote results summaries, contributed mentoring for analysis.
1. DES Collaboration, “Dark Energy Survey Year 1 Results: Cosmological Constraints from Galaxy Clustering and Weak Lensing.” *PRD* 98 (2018) no. 4, 043526, [doi:10.1103/PhysRevD.98.043526](https://doi.org/10.1103/PhysRevD.98.043526), [arXiv:1708.01530](https://arxiv.org/abs/1708.01530).
Ran MCMC chains for final analysis, generated summary plots and tables for paper.

Credited as a DES builder or observer

Builder: recognizes 2 yrs FTE collaboration infrastructure work, allows sign-on to DES science papers.

Observer: credited for data taken during DES observing shifts.
